

Apple balsamic Vinegar

Quite rightly, this vinegar is almost mandatory. Our land is rich in olive groves, vineyards and fruit trees. This is why our apple balsamic vinegar tastes like apples.

The result is a vinegar that is more gently acidic than wine vinegar and perfectly combines with a wide variety of dishes.

Tasting notes

Colour: Aged straw yellow.

Scent: Its penetrating, direct aroma is reminiscent of fresh grass and tea leaves.

Flavour: Fresh, perfumed and sweet. It has a persistent taste in the mouth, with an strong presence of sweet apple aromas.

Pairing: With all sorts of salads that contain fruits, especially with salads with apple, avocado and nuts. Delicious with fresh salted spinach.

It may also be used for desserts, such as oven-baked apples.
