EMPELTRE EVERYDAY

EXTRA VIRGIN OLIVE OIL

NOS Empeltre is an oil shaped by the wind. Made with Empeltre variety olives grown in an inland, sparsely populated region surrounded by mountains and characterized by a blend of winds that create a unique microclimate.

A DISTINCTIVE OIL, WITH A CHARACTERISTIC SWEET TOUCH.

Origin

The winds Cerç and Garbí sweep across the Terra Alta, where our Empeltre olive trees grow. These two gentle winds aid in the growth of the olives. The Garbí, a sea breeze, brings moisture and freshness to the olives, along with a pleasantly subtle hint of saltiness. It's the wind of summer afternoons, the one that marks the siestas. The Cerç, a north-western wind, clears the olives, helping them mature healthily. In addition, it is said that the wind gives a special personality to the people of the region: stubborn, resilient, and with a big heart.

Variety

Empeltre is an elongated, resilient olive variety native to Aragón and the Ebro Valley. It is known for its fruitiness and smooth flavor, with a hint of sweetness. For NOS, we seek an early-harvest Empeltre, with a more vibrant aroma and green notes.

Tasting Notes

Oil with a fruity, ripe profile and green undertones, evoking aromas of tomato and ripe fruits like banana and apricot. The green walnut characteristic of this variety is also very clearly noticeable. On the palate, it is an oil that offers a pleasant sense of fullness. NOS Empeltre stands out for its natural sweetness. This sweetness and silky texture, combined with a hint of spiciness and bitterness, provide a very interesting balance.
