

OLEAURUM

MUCH MORE THAN AN OIL

A DIAMOND IS MORE THAN JUST A STONE, IT IS A MASTERPIECE CREATED ON A WHIM OF NATURE. DIAMONDS SEEM TO RELEASE SPECIAL POWERS; THEY MAKE US DREAM AND REPRESENT THE FULFILMENT OF WISHES, SOMETHING A MERE STONE CAN NEVER ACHIEVE. SIMILARLY, OLEAURUM IS ALSO MUCH MORE THAN AN OIL.

TASTING NOTES

Oleaurum DOP Siurana is produced from a selection of the finest DOP Siurana olive oils. It has an intense and pleasantly fruity aroma, with notes that are reminiscent of mint and freshly cut grass, as well as hints of fruit like apple or banana.

The flavours of tomato and unripe walnut, with an almond aftertaste that creates a magnificent sensation on the palate, make you quickly appreciate that you are tasting a unique and exceptional oil. Overall it is a harmonious, well-rounded and rich oil with a multitude of attributes and a perfect balance between sweet, bitter and spicy.

Both its flavour and aroma are unmistakable and when tasted it leaves no one indifferent.

DOP SIURANA

The Protected Designation of Origin Siurana is located in southern Catalonia, by the Mediterranean sea. Arbequina olive variety, soft and fruity, is genuine from this region. The area of Siurana was recognised as DOP more than 35 years ago, because of its milenary olive-growing tradition and because some of the world's best olive oils are produced in it.
